TERRITORIAL EXHIBITION.
It is specially requested that all farmers
having samples of last year's grain yield
should at once communicate with the under-

ed to put forth every effort to procure the
best exhibits obtainable.
The exhibition will open at Regina on Monday, the 29th of
July, and continue until the 10th of August,

It has been found that in consequence of
the railway requiring all their rolling stock
for movement of the Exhibition in Sep-
tember the above date was necessary in
order to secure cheap freight and passenger
rates.

Distribution of Samples of Grain.

From the Experimental Farm at Ottawa.
To the Editor of The Times.
During the past eight years' samples of
those varieties of grain which have suc-
ceeded best on the Experimental Farm's
have been distributed on application 3 lb.
bags to farmers in all parts of the Domini-
on free through the mail. The object in
view in this distribution has been to im-
prove the quality and character of these
important agricultural products through-
out the country. The work has met with
much appreciation and a considerable de-
gree of success.
Last year I was instructed by the Hon-
orable Minister of Agriculture to forward
as far as practicable, two samples to each
applicant, but the applications received
were so numerous that on this basis of
distribution all the available stock had
been promised by the middle of February
and all later applicants could not be
supplied.
This year my instructions were to send
one sample only to each applicant, with
the hope that with this limitation every
farmer in the Dominion who so desires
may share in the benefits of this useful
branch of the work of the Experimental
Farm.

The distribution now in progress con-
sists of some of the most promising sort
of oats, barley, spring wheat, peas, field
corn and potatoes. Already more than
7,000 applications have been filed. All
farmers desiring to participate in this
distribution should send in their applica-
tions early, and state which of the above
named samples they would prefer, and
their wishes will be met as far as prac-
ticable, until the available stock is exhaust-
ed. The grain can be sent early, but the
potatoes will not be distributed until the
danger of being injured in transit by frost
is over. Letters addressed to the Central
Experimental Farm may be sent free of
postage.

WM. SAUNDERS,
Director Experimental Farm.

A. O. U. W. Banquet.

At Regina—Election of Officers.

The banquet held at the grand lodge, A
O. U. W. at Regina, brethren, was one
of the best ever held in the city. Among the
speakers of the evening were N. F. Davis,
M.P., D. J. Goggin, Grand Master Cavanah,
Dr. J. R. Jones, Grand Recorder Matthew,
Dr. Willoughby, J. K. McInnis of the
Standard, and Past Grand Master Pratt.
The Regina brethren spared no pains or
expense to make the affair a success, judg-
ing by the very hearty manner in which
all were treated, they more than exceeded
the session was prolonged to a late hour
owing to several matters of importance
coming up for discussion and the election
of grand lodge officers, which was keenly
contested for several offices. After our
business was disposed of, the election of
officers took place with the following
result: Past grand master, J. H. Cavanah;
Lethbridge; grand master, C. Campbell;
Winnipeg; grand foreman, S. B. Ritchie;
Winnipeg; grand overseer, J. M. Matthew;
Winnipeg; grand receiver, J. Mason, Por-
tuguese Prairie; by acclamation, grand
guide, F. W. Kerr, Prince Albert; grand
J. W. W. Cushing, Calgary; grand O.W.
W. Fenwick, Alexander; grand medical
examiner, J. R. Jones, M.D.; grand
trustees, A. Pratt and J. W. Baker; dis-
trict deputy grand master workmen: Win-
nipeg district, J. W. Lyons; Brandon, R.
Lower; Regina, Dr. Willoughby; Calgary,
John Herron.

The Western Workman was again made
the official organ, members to receive a
copy of the paper free. The present sys-
tem of sending postal cards and circulars
was abolished, the same as practiced by
their grand lodge jurisdictions. By the
adoption of the Workman as the official
organ, the grand lodge effects a saving of
\$500 to members.

It was decided to hold the next grand
lodge session at Winnipeg, the second
week in March, 1896.

SOUTH AFRICA.

The following characteristic letter has
been received by Mr. Grahame Neilson of
Prince Albert and was 33 days on the way
JOHANNESBURG,
South Africa,
Feb. 11th, 1895.

DEAR FRIENDS,—I got here at last, and
hardly know what to write you. Had a
very hard trip and very rough weather. I
was sea sick, every thing came up but my
toe nails. However did not die, but
wished I could. Seen plenty of new
things. Stopped at England and Madeira
Islands. This is the most beautiful place
I ever saw. Of course after we crossed
the Bay of Biscay we had summer all the
way; all kinds of fruit at Madeira, al-
though they have summer all the year,
they are eligible for everything. Saw
whales, flying fish, porpoises, a shipwreck
and plenty of queer things that I will tell
you about when I go back. It is hard for
me to realize that it is winter at home.
We have lost the North Pole star, and have
to take our bearings from the Southern
cross. I landed in Capetown on January
28th; felt very tired; never was so glad to
get on land. Stopped there one day; left
for this town on the 29th, 1,030 miles by
rail; was three days coming; seen all
kinds of fruit from the car windows. The
first fifty miles from Capetown is princi-
pally vineyards; from there to this place is
ranches. First, sheep by the thousand,
then horses till you can't rest; ostriches,
calves, goats, snakes, monkeys, baboon
and springbrocks. Every man has about
six thousand acres for a farm. They draw
their grain to market and sell it in the
sheaf. It is a rancher has thirty head of
cattle he hides all of them on one wagon
and drives to market. I saw as many as
eighteen milch cows pulling one wagon
and they looked like so many ants; one of
our cows would make six of them. The
tails of the sheep weigh twenty five pounds
and there is hardly a leg can walk when
fat. Now for the ladies. Well there is no
use trying to give you any idea. They are
as homely as a lay stack struck with
thunder; some of them are very large
weighing two hundred pounds; and the
PRINCE ALBERT TIMES would make two
large gowns for them, so you may say
they are in full dress every day, ready at
any time to attend the stylish ball. The
men look like a wire of monkeys
turned crossways.

Well, if I had come here with the in-
tention of staying I would have been dis-
appointed, but of course the trip may be
right, still it will take two years' pleasure
to none for the sickness I had on the road.
This is the largest mining camp in the
world. There is sixty miles of gold and
all the mines are paying well. What kill
the place is Kallie lode; they work for 50
cents per day, only the Dutch Government
will not allow them to do any skilled labor,
so it is pretty good for first-class mechan-
ics, but it costs a fortune to come here.
Carpenters can work 75 cents and Sunday
too at good pay. Of course I can get
job if I want to work on an engine, but
have not made up my mind what I will do
I want to see some of the country, and
then likely I will be back home. I am
paying fifteen dollars per week for my
board and then I am starving.

I don't think I would advise any one to
come here, especially a laboring man; it
might better go to the d— and shake
himself. It is a little dangerous after
night; carry a six shooter all the time if
the niggers are near you to rob you or
you have to go. This town is 14 miles
long, has 60,000 inhabitants and is ruled
by a Dutch Government. I'll now give
you a list of some of the prices charged
here. Potatoes, 65 cents per bag; butter, 7
cents per lb.; eggs, 75 cents per dozen
cured ham, 75 cents per lb.; mutton and
beef, same as Saskatchewan.

With kind regards to you and the rest of
the boys, I am
Yours Respectfully,
WILLIAM DRAKE.

We have received the first number of
"La Revue Nationale," a new monthly
magazine published in Montreal in the
interests of the French Canadians. Its
object is to review and foster Canadian
French literature and to encourage the
rising generation to interest themselves in
the history and letters of their country.
Declining any intention to enter into
personal polemics, or useless discussions, it
aims simply to be an exponent and review
of French-Canadian literature. It appears
to be well got up and contains several
interesting articles from well known
French Canadian writers, and is illus-
trated with the portraits of the several
authors who have written articles for its
pages. Among the real appears the
familiar face of our Late Lieutenant Governor,
Joseph Routh. We have no doubt that
it will be welcomed with a kind recep-
tion into the homes of the French
people of America, in whose language it is
written. We wish it every success.

The jury returned a verdict that deceased Dina Stearns was suffering from a mild form of conjestion of the lungs, but that the direct cause of death was suffocation induced by the administration of a certain drug. There was no medical man in attendance on deceased, but medicines were administered by parties living in neighborhood.

The greatest papers in Great Britain and the United States freely acknowledge the wonderful merit of the *Family Herald and Weekly Star*, Montreal. The *Family Herald* is a great newspaper and a great family paper, but it is more than that, it is one of the greatest authorities in the world on cheese, butter, general dairying, and general farming. How a progressive, up-to-date farmer can do without the *Family Herald and Weekly Star* of Montreal is hard, indeed, to understand.

The Manitoba Free Press in speaking of the *Exbridge Piano* says: They are genuine works of art, and reflect the highest credit upon the firm which has produced them. The old style of upright pianos is thrown into the shade. The *Exbridge Piano* has a continuous book rack which will be appreciated in the playing of duets; sitting down to the piano the performer touches a lever and the keyboard is uncovered, and the hinges of the lid turn out of sight, and the instrument presents the same artistic appearance when open as when shut. The Organ manufactured by the *Exbridge* company have been in use for over twenty years, and require no special description as they are so well-known and liked in the homes of the thousands over the whole world. However, the company is manufacturing a six Oct. Organ in Piano case which is having a wonderful sale. The Pianos made by the *Exbridge Piano Co.* are a credit to Canadian enterprise, being equal in tone, durability and finish to the best American.

Dear Sirs—I used a box of your Purifier, and found it an excellent article. My horse improved so much in appearance, that I have since sold him to American buyers, making a first class sale. I also had a horse that got badly splained in the knee. A Veterinary surgeon told me to try Dick's Blisters, which I did; and the result was that, in less than ten days, I was driving him as well as ever.

"Dick's Blood Purifier" is the best of all the condition powders I ever used. It makes a horse thrive and feel well, improves his coat and keeps him perfectly clean in the legs, no matter how long he stands in the stable! I gave half of the first box to a gentleman, who had a fine trotting stallion that had swollen in the legs, and had scratches from being out of condition, and in a few days his legs were perfectly clean, and the cracks healed rapidly.
